THE CHURCH FOR ALL...
ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

This is the best bubble he has ever blown, big and shiny and full of rainbow lights that shimmer gaily as he blows... and blows... and blows...
Inevitably, there will come the moment, when he will blow too hard and the bubble will burst. And then what was a thing of bewitching beauty will have vanished into air.

Some of the brightest-appearing things in life are no more stable than bubbles. They can shatter in an instant. But there are values that endure... the kind of values we learn in Church. The Church can help us achieve something solid and real, and the faith it teaches us is in no danger of disappearing today... tomorrow... or ever.

Welfare Department

Explains Cut in Public Assistance Checks

The Commissioner of Public Welfare, M. H. Brooks, states that many of the people who get both welfare checks (public assistance) and Social Security benefits will now get less help through the Welfare Department. A few will be removed from the welfare rolls entirely because the increase in their Social Security check will now cover those needs which have previously been met by the welfare check. The persons who will receive a reduction in their welfare checks or whose checks will be discontinued are those who are getting increases in their Social Security benefits as the result of the Social Security Amendments of 1961.

These reductions and removals will come about because the increase in the Social Security check means more income for the person. Under Federal and State laws, all income of an applicant for or a recipient of public assistance has to be counted in arriving at the amount of his check.

Many people have asked how the amount of the welfare check is figured. In old age assistance, for example, the amount that the person can get is the difference between his monthly requirements and his income up to the legal maximum of \$40. Income includes the Social Security benefit and any other money coming in regularly. However, the Welfare Department cannot take into consideration all his requirements for daily living. Funds are sufficient only to take into account the person's needs for food, clothing, personal incidentals, shelter, light, water, and fuel. Then, in addition, the Department has to obtain the average cost of these daily requirements on a statewide basis, and use these cost figures in working up the person's needs.

Some have asked why different people get more welfare help than others, and why some cannot qualify for public assistance at all. The most frequent reason is that people's requirements and income vary. For instance, an old person living with his children may have no expense of shelter and lights, water, and fuel. His

MEDICAL SCHOOL LEADERS—Senior medical students at the University Medical Center in Jackson have selected a Bay St. Louis man as class secretary. The complete slate of officers includes (back row, left to right) Oscar Irbey of Stenwall, president; Jimmy Hayes of Hollandale, vice-president; and Peter Henderson of Bay St. Louis. (Front row, left to right) Nick Abdo of Greenville, honor council representative; John Long of Hazlehurst, honor council representative; and Tom Walden of Natchez, Treasurer. Henderson is the son of Mrs. W. P. Henderson and the late Dr. Henderson.

James Shigeta introduces Carroll Baker to a centuries-old Japanese ritual in a scene from "Bridge to the Sun," based on the autobiographical novel by Gwen Terasaki, an American girl who married a young Japanese diplomat just before the outbreak of World War II and lived with him in Japan. The stirring drama, released by Metro-Goldwyn-Mayer, was filmed largely on locations in Japan. It was directed by Eileen Perier.

Opening at the Legion Theatre Saturday, and playing Sunday through Wednesday of next week.

\$40 a month Social Security benefit will cover all or nearly all if the cost of his food, clothing, and personal incidentals at the figures set by the Welfare Department. Another old person may have to pay rent, lights, fuel, and water, and in addition may have a wife dependent on him. His Social Security benefit of \$40 a month will not cover his daily needs and those of his wife, as set by the Department, and he will be able to get old age assistance as well as Social Security.

A simple way to explain the cuts which are having to be made in the welfare checks because of the changes in the Social Security benefits is to say that when a person's income goes up, his welfare check usually has to come down.
